Physio, Speech Language, Music,
Occupational Therapists & Dietitians

Help your child to communicate effectively

If your child is having problems

- speaking clearly
- stuttering
- speaking in sentences
- knowing and choosing the right words to express themselves
- understanding what has been said
- following instructions
- staying on topic
- taking turns, respecting personal space
- using eye contact appropriately
- talking with their friends

Just call us, our Speech Language Therapists can help
